1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-25 are allowed because prior art fails to teach or make obvious a method and system, an article of manufacture comprising a computer usable storage medium including computer readable program code and a computer data signal comprising code configures to cause a controller to implement a method for acquiring x-ray data, comprising: an object displaced along an axis, the axis extending perpendicularly through a plane defined by the x-ray beams, further wherein a displacement occurs at, at least one of a constant, accelerating, and decelerating rates; varying the rate of displacement, the variation enabling an x-ray detector to acquire data for at least one x-ray image during the accelerating or the decelerating displacement, and employing current modulation during the acquisition as claimed in claims 1, 7, 13, 19 and 25. Claims 2-6, 8-12, 14-18 and 20-24 are allowed by virtue of their dependence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
